

ONEHealthEQ

Cloud Based EMR/EHR purpose built for regional care facilities and ambulatory care. OneHealth delivers a secure and simplified unified communications infrastructure to give the modern practice everything it needs.

THE CHALLENGE

Many healthcare organizations struggle with:

ECW Premise and provider based performance issues

Patient population data is not "owned"

Security and Compliance

Provider and patient experience

Operational Efficiency

Key Features of ONEHealthEQ

- + eClinical Works (eCW) built on Amazon Web Services (AWS) architecture
- + Managed by OneHealthEQ, a next-gen Managed Services Provider
- + More than just working tickets, truly a partner to providers, clinicians, and healthcare management
- + ECW Premise and provider based performance issues
- + Optimized architecture, purpose-built for eCW
- + Current and up-to-date versions of eCW
- + Up-to-date and well-architected infrastructure
- + Optimized for secure, remote access via your network

6-WAY REDUNDANCY

(2 Availability Zones per Region)

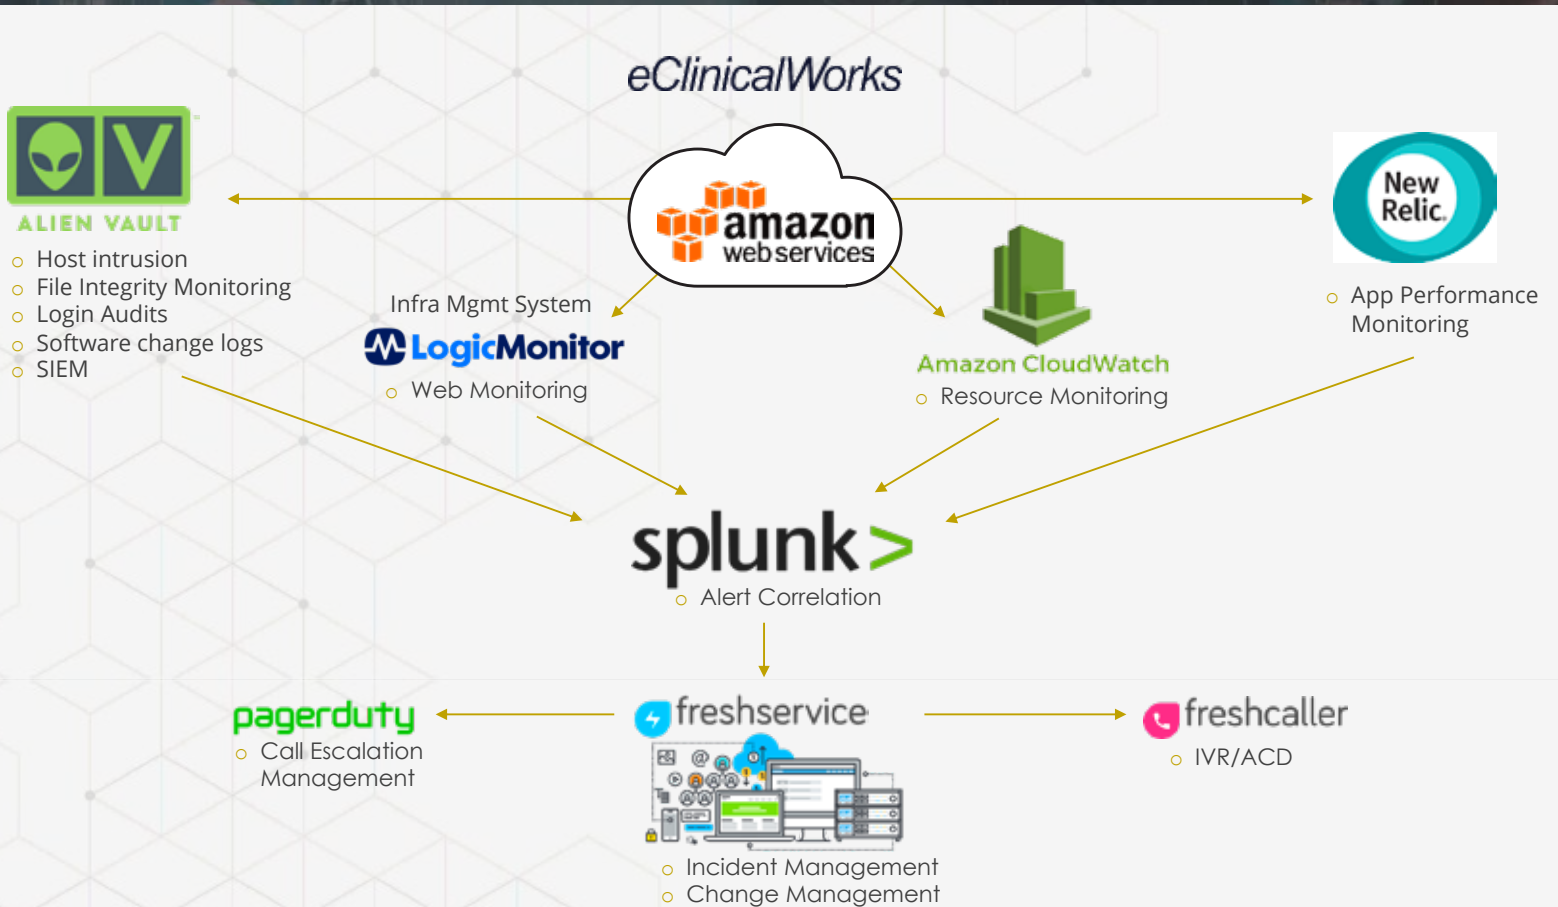

OneHealthEQ Regions:

- Northern Virginia - Primary Region
- Midwest (Ohio) - Backup Region
- "Always-On" Replication
- PacNorth (Oregon) - Cold Region
- Every 24 Hour Back up

Key Differentiators

Organizational Transformation

- + Full control of your provider and patient population data (no added cost)
- + Disaster Recovery and Automated Backups are built-in (no added cost)
- + Employs standard, hardened AWS controls for HIPAA compliance and advanced security prevention, detection and mitigation
- + Unlimited and Quick/Auto Scalability
- + Advanced traffic and path optimization
- + 24 x 7 application performance monitoring
- + Dashboard and reporting
- + Built-In Security (not add-on):
- + Annual vulnerability scans
- + Department of Defense based security and intrusion prevention

BUSINESS OUTCOMES

- + Data Not Held Hostage by SaaS platforms
- + Provider Time Savings / Operational efficiency
- + Improved Patient experience
- + Cloud Flexibility
- + Secure and Compliant
- + Migration in as little as 2 weeks
- + Scalable - Pay as you grow
